

Feedback Form

As you leave the ASAP Program please provide us your feedback regarding our program. Your feedback will allow us to maintain our effectiveness and improve where needed:

Client: ASAP is going to help me be successful in life. I know it, I am so glad my mother put me in this program. It helped me realize what the meaning to life is, and how much drugs affect that.

Parent: I liked "checkin". It forces everyone to participate at some level - which is good for someone who doesn't like speaking in public. Having kids that have been there longer than others helps parents and their kids see the progress that can be made and/or how far they have come. A session on how they cover up their drug use would be useful. I had no idea until her Doctor suggested ASAP. Which is why this program has been so invaluable to her sobriety. It brought it out in the open and allowed us to deal with it with all the participants in ASAP to support us.
