

feels refreshing to be clean instead of being stoned constantly. I had imagined my laziness, ~~the~~ ~~to~~ my dishonesty, and everything else that was necessary to support my habits, and I decided to stay clean instead of being locked up.

When I am in relapse mode I will lie, my eyes will be bloodshot, and I will not care and be extremely lazy. I will try to cover up my marijuana use by using eye drops, spraying cologne, using mouthwash and lying.

My family and my friends have both told me that they are <sup>very</sup> proud of me for staying clean, and I really haven't heard that in a while and it feels very good.

I want to thank my counselors **Loric** and **Kim** and my fellow drug class-mates, my PO and especially **Kim** (my guardian). You guys were all a very good support system and showed me what it was like to be sober. I hope you guys in this class can get through it like me, ~~it really helped me out~~ ~~it really helped me out~~ ~~it really helped me out~~ it really helped me out.
