

~~ASAP~~

Feedback Form

As you leave the ASAP Program please describe the quality of your experience at ASAP:

Client: I very much enjoyed ASAP. It helped me realize I had a problem and that I wasn't alone. It helped me process how I felt about drug use better and also made me able to control my cravings.

Parent: Dad: I am very satisfied with this program. It was very educational + I enjoyed the interaction with other parents, learning from them + realizing that our problems were very similar in nature.
